Information and business communication management 🔒
 International science, development and cooperation
 Labour consultancy and human resources management
 Legal sciences for firms and institutions
 Political & social sciences
 Psychological sciences and techniques 🔒
 Social innovation, communication, new technologies
 Social work 🔒
 Strategic and security sciences 🔒

Postgraduate degree (Master, 2 years)

Administrative and juridical science of public and private organizations
 Area&global studies for international cooperation - EN
 Body and mind sciences
 Business administration - EN 🔒
 Business administration 🔒
 Clinical psychology 🔒
 Communication, ICT and media
 Criminological and forensic psychology 🔒
 Corporate finance and financial markets 🔒
 Cultural anthropology and ethnology
 Digital business administration and management
 Digital skills for sustainable societal transition - EN
 Economic analysis and policy - EN
 Economics - EN
 Economics and management
 Economics of the environment, culture and territory
 European legal studies - EN
 Geography and territorial sciences
 Governmental studies
 International studies
 Public and political communication
 Quantitative finance and insurance - EN
 Social work and social policies 🔒
 Sociology
 Statistical and economic methods for decisions
 Strategic management and marketing 🔒
 Strategic sciences
 Psychology of work in organizations

Life sciences and medicine

5-year or 6-year postgraduate degree (Bachelor and Master)

Dentistry 🔒
 Medicine and surgery - EN 🔒
 Medicine and surgery 🔒
 Pharmacy 🔒
 Pharmaceutical chemistry and technology 🔒
 Veterinary medicine 🔒

Undergraduate degree (Bachelor, 3 years)

Agricultural science and technology
 Audiometric techniques 🔒
 Audioprothetic techniques 🔒
 Biological sciences 🔒
 Biomedical laboratory techniques 🔒
 Biotechnology 🔒
 Childhood neuro and psicomotricity 🔒
 Dental hygiene 🔒
 Dietistic 🔒

Environment and workplace prevention techniques 🔒
 Exercise and sport sciences 🔒
 Food technology 🔒
 Forestry and environmental sciences
 Imaging and radiotherapy techniques 🔒
 Herbal products
 Midwifery 🔒
 Natural sciences
 Neurophysiopathology techniques 🔒
 Nursing 🔒
 Orthoptic and opthalmologic assistance 🔒
 Pediatric nursing 🔒
 Physiotherapy 🔒
 Production and management of domestic and wild animals
 Professional education 🔒
 Psychiatric rehabilitation techniques 🔒
 Speech and language therapy 🔒
 Viticulture and enology 🔒

Postgraduate degree (Master, 2 years)

Agricultural science
 Animal science
 Animal nutrition and feed safety - EN
 Biotechnological and Chemical Sciences in Diagnostics - EN
 Biotechnology for neuroscience - EN
 Environmental biology
 Evolution of animal and human behaviour
 Food and human nutrition 🔒
 Food science and technology - EN
 Forest land and systems science and technologies
 Health professions of prevention sciences 🔒
 Health professions of rehabilitation sciences 🔒
 Health professions of technical sciences (diagnostic) 🔒
 Industrial biotechnology
 Medical biotechnology
 Molecular biotechnology - EN
 Nursing and midwifery sciences 🔒
 Plant biotechnology
 Sciences and advanced techniques in sports 🔒
 Sciences of natural systems
 Sciences and techniques of adaptative physical activities 🔒
 Smart agriculture - EN
 Viticulture and enology sciences - EN

Natural sciences and technology

Undergraduate degree (Bachelor, 3 years)

Chemistry and chemical technology
 Computer science
 Earth sciences
 Materials science and technology
 Mathematics
 Mathematics for finance and insurance
 Optics and optometry 🔒
 Physics

Postgraduate degree (Master, 2 years)

Applied earth sciences
 Cellular and molecular biology - EN
 Chemistry

EN = taught in English

🔒 = with quota of places

Clinical, forensic chemistry and doping control
Computer science
Environmental chemistry
Environmental monitoring, safeguard and reinstatement
Industrial chemistry
Materials science - **EN**
Mathematics
Physics
Physics of complex systems
Stochastics and data science - **EN**
Strategic and military sciences

PhD programs

en.unito.it » Research

Arts and humanities

Archaeological, historical and historical-artistic sciences
Humanities
Digital humanities. digital technologies, arts, languages, cultures and communication
(*Intra-university PhD program*)
Philosophy – consortium FINO (*Intra-university PhD program*)

Economic, juridical and social sciences

Business and management
Comparative analysis of institutions, economics and law
Economics “Vilfredo Pareto”
Global history of empires (*Intra-university PhD program*)
Innovation for the circular economy
Law and institutions
Law, science and technology (*Intra-university PhD program*)
Law, the individual and the market
Psychological, anthropological and educational sciences (*Intra-university PhD program*)
Social and political change (*Intra-university PhD program*)
Sociology and methodology of social research (*Intra-university PhD program*)
Urban and regional development (*Intra-university PhD program*)

Life sciences and medicine

Bioengineering and medical and surgical sciences (*Intra-university PhD program*)
Biomedical sciences and oncology
Complex systems for quantitative biomedicine
Experimental medicine and therapy
Food, health and longevity (*Intra-university PhD program*)
Medical physiopathology
Molecular medicine
Neurosciences
Veterinary sciences for food and animal safety

Natural sciences and technology

Agricultural, forestry and food sciences
Biological sciences and applied biotechnologies
Chemical and material sciences
Computer science
Dottorato Nazionale in AI
Dottorato Nazionale in Sustainable Development and Climate change (SDC)
Earth sciences
Modeling and data science
Pharmaceutical and biomolecular sciences
Technology driven sciences: Technologies for cultural heritage (Tech4Culture)
Physics
Pure and applied mathematics (*Intra-university PhD program*)
Sustainable Development and Cooperation (SUSTNET)
