INNOVATION IN DIDACTICS FOR THE EUROPEAN ALLIANCES
SUMMER SCHOOL | 11-12 JULY 2023 | TURIN

WEDNESDAY, 12 JULY

@ Auditorium, Palazzo Aldo Moro, Via Giuseppe Verdi

9.30 - 11.00 | Embracing the Future: Open Principles and Co-Creation in Cultivating AI-Enhanced Digital Competences

In the rapidly evolving digital landscape, harnessing the potential of artificial intelligence (AI) becomes paramount in preparing students for the future. To effectively cultivate AI-enhanced digital competences, a holistic approach rooted in open principles and co-creation is crucial. Experiences in co-creation with students in developing project-based and challenge-based learning will be presented, especially in the context of virtual mobilities and the E3UDRES2 European University Alliance. The impact, models and ethics of AI in the education context will be included.

Diana Andone, Director of e-learning Centre, Polithenica University of Timisoara

11.00 - 11.15 | Grab and go: short coffee break

11.15 - 12.45 | eXtreme Learning - co-teaching with chats, bots and intelligent students. Dive into an immersive demonstration of co-creating learning content using chatGPT and AI, in synergy with students. Explore the profound implications of these tools for the AI-enhanced classroom. This hands-on presentation unveils the potential of these innovations for content creation, evaluation and research. Don't just teach, co-teach with students and AI!
