REQUIRED STUDY DOCUMENTS

Before sending your online application, look for the foreign education system of reference for your high school diploma/post-secondary qualification/undergraduate degree in the table below and find the required documents to apply.

For all applicants:

- All documents uploaded in your online application are accepted in Italian, English, French or Spanish. If your original documents are issued in a different language, you also have to attach a certified translation into Italian, English, French or Spanish;
- If you have not yet obtained your final qualification (high school diploma/post-secondary qualification/undergraduate degree) within the deadlines to submit the online application, you will be requested to upload:
 - official certificate attesting your enrollment in the last year of studies;
 - official score report of the academic year/semesters so far attended.

provided that you have to hold the final qualification for the enrolment.

For applicants of undergraduate or 5-6 year postgraduate degree programs:

You can enrol at an Italian university if you hold a qualification (high school diploma or equivalent) obtained after **12 years of global schooling**, provided that it grants access, in the foreign education system of reference, to a degree program equivalent to the Italian program candidates wish to enrol at. Moreover, these qualifications grant access to Italian universities if they have been obtained after attending **at least the last two years** in the foreign education system of reference.

- If you have attended a **pre-school year**, it may be included in calculating the 12 necessary years to access Italian universities if the attendance of the pre-school year was mandatory and the course program included the teaching of the native language of the country and basic arithmetic. In this case, the attendance of the pre-school year has to be mentioned and included in your online application among the uploaded documents.

If you hold a qualification obtained after 11 or 10 years of global schooling, please note that it does not allow access to Italian universities unless you satisfy one of the following additional conditions:

- you attended one year (in case of 11 years) or two years (in case of 10 years) of university studies and took all the exams foreseen by the first year (in case of 11 years) or the first two years (in case of 10 years) of the degree program.

In this case, you also have to attach to your online application your **transcript of records** along with an official certificate stating you passed all the exams foreseen by the first year (also second year in case of 10 years of global schooling), **both with a certified translation** into Italian, English, French or Spanish if the original document is issued in a different language;

- you obtained a post-secondary qualification to compensate for any missing years of secondary education in a subject related to the degree program you wish to enrol in.

In this case, you also have to attach to your online application your **post-secondary diploma** and related **transcript of records, both with a certified translation** into Italian, English, French or Spanish if the original document is issued in a different language;

- you attended a preparatory program (**Foundation Program**) at the University of Torino or at another Italian university, to compensate for the missing year of schooling (in case of 11 years).

E-mail: internationalstudents@unito.it

UNIVERSITÀ DEGLI STUDI DI TORINO

Direzione Innovazione e Internazionalizzazione *Sezione Studenti Internazionali*

In this case, you also have to attach to your online application a **certificate stating that you have successfully completed the Foundation program** as well as all the exams and ECTS credits/study hours.

As an example, the education systems of Azerbaijan, Brazil (for qualifications obtained before 2006), Colombia, Venezuela, Russia, Belarus, Peru, Kazakhstan, Ukraine and Costa Rica do not require 12 years of global schooling, therefore candidates have to satisfy the above additional requirements to access Italian universities.

If a mandatory national **entrance examination** is required in your country to enrol at universities, the same exam might be required for admission into Italian universities as well, therefore make sure to attach it to your online application.

If you hold an **International Baccalaureate Diploma (IB diploma)**, please carefully read the instructions on [Apply@Unito homepage](#).

For applicants of postgraduate degree programs:

If you hold the **Diploma Supplement** of your university studies, it may be provided as an alternative to both the study qualification and transcript of records, but it must be issued on the basis of the international model developed through an initiative of the European Commission, the Council of Europe and UNESCO and it must also include the complete transcript of records.

In addition to the documentation listed below according to your country of origin, you may provide the following additional documents in order to enhance the evaluation of your application:

- official degree program syllabus (course description) issued by the foreign Institution/University, provided with a certified translation into Italian, English, French or Spanish if the original document is issued in a different language
- transcript of records including a description of the applied grading scale/system, provided with a certified translation into Italian, English, French or Spanish if the original document is issued in a different language;

Please be aware that **the aim of this document is to support you** in submitting a complete online application and it is a **non-exhaustive** list of the the foreign education systems and required documents that follows the yearly recommendations given by the Italian Ministry of University and Research (MUR) in the [Procedures for entry, residency and enrolment of international students and the respective recognition of qualifications for Higher Education courses in Italy](#).

Therefore, **please note that the University reserves the right to request at its sole discretion any additional document that may be necessary for evaluating your educational background.**

Applications must be complete of all the documentation required. Incomplete applications will not be considered, so please make sure you have attached all the required documents before submitting it.

The university proceeds with an assessment of the foreign study qualifications to verify that admission requirements to the upper level of higher education in Italy are met. One of the parameters checked is the accreditation by the competent bodies of the institution issuing the foreign qualification. The lack of accreditation might be a cause of rejection.
