

**Year of establishment**

2016

Field

72.11 -Research and experimental development in biotechnology field

Accreditation: UNI EN ISO 9001:2015

Activity

Promotion, design, development, production and marketing of innovative services for research and development of new experimental protocols for the treatment and evaluation of molecules with activity on the nervous system.

Applications/ Services

Neurological models, mouse models, in vivo studies, in vitro studies, ex vivo studies.

Market opportunity

Pharmaceutical, biotechnology, and medical device Companies (BIG PHARMA, PMI, start up), Neuroscience Start up, Contract Research Organization (CRO), Italian and international Research Centers

University of belonging

University of Torino

Contacts
