Visiting Professor Program Academic year 2020/2021

DEPARTMENT OF CLINICAL AND BIOLOGICAL SCIENCES

TEACHING COMMITMENT: 30 hours

COURSE TITLE

Nephrology

TEACHING PERIOD

1st term

SCIENTIFIC AREA

Nephrology

LANGUAGE USED TO TEACH

English

The Degree Course is entirely taught in English

COURSE SUMMARY

The clinical nephrology program at Unito-MedInTO is designed to provide outstanding practical and academic training in every aspect of nephrology. Over the last 30 years, there has been a dramatic increase in the body of knowledge relating to basic and clinical nephrology. This curriculum attempts to incorporate these advances and is an intensely academic one, designed not only to provide a broad knowledge of nephrology, but to include the ability to integrate a number of equally important precepts- interpersonal skills, professional attitudes, humanistic qualities, and lifelong learning.

LEARNING OBJECTIVES

Expand clinically applicable knowledge base of basic and clinical nephrology sciences.

Develop and apply an analytical approach to renal diseases and nephrology.

Learn to access and evaluate nephrology literature relevant to patient care.

TUTORSHIP ACTIVITIES (IF APPLICABLE)

LAB ACTIVITIES (IF APPLICABLE)

OTHER ACTIVITIES (IF APPLICABLE)

VISITING PROFESSOR PROFILE DESCRIPTION

The successful applicant will be a world-wide recognized expert in all aspects of Nephrology, including normal kidney physiology, electrolyte balance, nephrolithiasis, acute kidney injury and continuous renal replacement therapy, chronic kidney disease, and end-stage renal disease, including an understanding of and experience with hemodialysis, peritoneal dialysis, and nocturnal dialysis.

An excellent tracking record in publishing in Nephrology is required.
