UNITA RURAL MOBILITY

How to fill in the Learning Agreement

V02 dated 08/04/2024

1. How to fill in the Learning Agreement? (for international mobility only)

If you are selected for a Rural mobility abroad, you have to fill in the Learning Agreement document. Before you leave, you need to fill in the "**Before the Mobility**" section, by indicating:

- in the first table (page 1): your personal details and those of the sending university;
- in table B: the way in which Rural Mobility activities will be recognised in your study path;
- in the "Commitment" section, you will have to sign the document as trainee.

The Learning Agreement must be approved before the mobility and signed by the [Didactic Responsible for the Mobility of your Course of Study](#) in accordance with the teaching regulations and curricula and/or the Doctoral School.

Once the document has been approved and signed, you can send it to the host institution in order to ask for the signature of the *responsible person at the receiving institution*.

2. For which activities can I apply for recognition of Rural mobility?

You can apply for recognition of:

1. **Internship**, if it is coherent with your course of study and in terms of ECTS with the activities you will carry out during the rural mobility.
2. **Free credits or optional activities** (e.g. "other activities" or "training activities abroad") which do not necessarily require a grade, but can be recognised by simply by passing the training activity with any associated suitability assessment.
3. **Credits for "Flexibility Window"**, if the activity is available under TAF D in the choice rules of your career plan. If you choose this option, the Flexibility Window entry must be included in the Career Plan by 30 May 2024. Read more about the deadlines on the [Study Plan page](#).

The entry is available among the student-choice courses of the following degree programmes:

- If you are enrolled in a Bachelor's degree course, look for the entry in the Department of Pharmaceutical Science and Technology, Bachelor's degree in Herbal Products;
- If you are enrolled in a bachelor's degree course, look for the entry in the Department of Chemistry, Master's Degree in Environmental Chemistry;
- If you are enrolled in a five-year single-cycle degree course, look for the entry in the Department of Historical Studies, 5-year single-cycle degree in Conservation and Restoration of Cultural Heritage;
- If you are enrolled in a 6-year single-cycle degree course, look for the entry in the Department of Surgical Sciences, 6-year single-cycle degree in Dentistry and Dental Prosthetics.
