

WEBINAR UNITO-FOR-BEIRUT

After the 4th of August blast at the **Beirut** port, the five campuses of the **University of St. Joseph** has been severely damaged. The explosion is the last of a series of events (the protests, the default, the **COVID-19** pandemic) that have affected the Country in the last year. As a decades-long partner, the **University of Turin** organizes a moment of reflection about the future of the university education in **Lebanon** as well as on the perspectives of further cooperation projects in a such difficult moment. Also an occasion to raise funds to fix the damages at the **St. Joseph Campuses**.

.....
26 November 2020 | h 10.00-12.00 CET
