Visiting Professor Program
Academic year 2021/2022

DEPARTMENT OF MOLECULAR BIOTECHNOLOGY AND HEALTH SCIENCES
TEACHING COMMITMENT: 12 hours

COURSE TITLE
Neuropharmacology

TEACHING PERIOD
1st term

SCIENTIFIC AREA
Pharmacology

LANGUAGE USED TO TEACH
English

COURSE SUMMARY
Neuropharmacology of synaptic transmission in the central nervous system

LEARNING OBJECTIVES
To get insights into mechanism of action of neuroactive compounds of clinical relevance.

TUTORSHIP ACTIVITIES
N/A

LAB ACTIVITIES
N/A
OTHER ACTIVITIES BESIDES THE COURSE
The visiting professor will hold a seminar at the Neuroscience Institute of Cavalieri Ottolenghi foundation, Department of Neuroscience.

VISITING PROFESSOR PROFILE
Researcher with outstanding publication records and international reputation, teaching experience of Undergraduate, Graduate and Medical students. Experience in neuropharmacology of synaptic transmission and neural circuitry, complex behaviors. Experience in multiple approaches ranging from biochemistry and histology to slice and cell neurophysiology is also appreciated.

CONTACT PERSON AT THE DEPARTMENT
Prof.ssa Carola Eugenia Eva
