Visiting Professor Program Academic Year 2024/2025

TEACHING COMMITMENT: 14 hours

COURSE TITLE

Interventional Oncology

TEACHING PERIOD

2nd term

SCIENTIFIC AREA

Interventional Radiology

LANGUAGE USED TO TEACH

English

COURSE SUMMARY

The lectures that will be held by the visiting professor (VP) will focus on interventional procedures for the treatment of liver malignancies both primary (HCC) and secondary (oligometastatic setting). The visiting professor will hold these lectures for residents in the radiology residency program.

LEARNING OBJECTIVES

At the end of the lectures held by the VP, students will have learnt the basics of the clinical setting of the early and intermediate stage of HCC as well as of the oligometastatic setting. Technical knowledge of percutaneous and transarterial treatments will be also evaluated.

OTHER ACTIVITIES BESIDES THE COURSE

One lecture in a dissemination conference may be required after further evaluation of the competence of the VP.

VISITING PROFESSOR PROFILE

Associate or full Professor of Radiology/interventional radiology of distinguished international Institutions with high expertise in the interventional oncology field.
