COURSE TITLE

Monetary Policy and Financial Crises Prevention

TEACHING PERIOD

2nd term

SCIENTIFIC AREA

Monetary economics and banking

LANGUAGE USED TO TEACH

English

COURSE SUMMARY

This is a course about the role of money and financial intermediation in modern economies and therefore the environment in which businesses operate. In particular we will address the origins of banking panics such as those experienced at the onset of the Great Depression or during the 2007-08 financial crisis. We will also investigate the types of policies help prevent prevent financial crises and the conduct of monetary policy during and after crises.

LEARNING OBJECTIVES

Understanding macroprudential policies;
Understanding unconventional monetary policy.

OTHER ACTIVITIES BESIDES THE COURSE

The VP may give a research seminar in case the schedule allows.

VISITING PROFESSOR PROFILE

The VP is an expert of monetary theory and publishes extensively in international field research journals.

She/he has taught at several renowned universities about monetary economics.
