Visiting Professor Program Academic year 2019/2020

DEPARTMENT OF SCIENCES OF PUBLIC HEALTH AND PEDIATRICS

TEACHING COMMITMENT: 15 hours

COURSE TITLE

PEDIATRIC NURSING

TEACHING PERIOD

1st term

SCIENTIFIC AREA

MEDICAL SCIENCE, CLINICS

LANGUAGE USED TO TEACH

ENGLISH

COURSE SUMMARY

The visiting professor will present the problems involved in health promotion and disease prevention in the community and will show the primary care managed by the pediatric nurse in the territory (i.e out of the hospital). The Italian and foreign country models will be compared.

The primary care and the different models adopted in different countries will be discussed.

A relevant part of the course will be focused on Transitional care, ie the transition of patients with chronic severe illness from pediatric to adult hospitals.

The problems due to dealing with families of different ethnicity and faith will also be discussed.

LEARNING OBJECTIVES

- To reach a good knowledge of the duties and responsibilities of pediatric nurse both in hospital and home patient care
- To understand the cultural diversity of different populations in healthcare
- To define the nurse's role in Primary Care and Transitional Care models

OTHER ACTIVITIES BESIDES THE COURSE

The visiting professor will held a seminar addressed to MD of the specialisation school in pediatrics describing the duties and the responsibilities of the pediatric nurse in the hospital setting in his/her country.

VISITING PROFESSOR PROFILE

The visiting professor is expected to have a long teaching experience in pediatric nurse courses carried out in Nursing Schools or in Schools of Medicine.

A basic knowledge of Italian language is required.
