Visiting Professor Program Academic year 2019/2020

DEPARTMENT OF SURGICAL SCIENCES

TEACHING COMMITMENT: 31 hours

COURSE TITLE

Periodontology I

TEACHING PERIOD

2nd term

SCIENTIFIC AREA

Dental and Oral Diseases

LANGUAGE USED TO TEACH

English

COURSE SUMMARY

The course is designed to provide students with the clinical knowledge for proper knowledge of etiopathogenesis of periodontal diseases. The course includes a thorough discussion of microbiology, inflammatory and immune response of the patient and environmental factors that can contribute to the development of periodontal disease.

LEARNING OBJECTIVES

At the end of the course, students:

- Should be fully acquainted with periodontal microbiology
- Should be familiar with inflammatory process and immune response to the periodontal pathogens
- Should be fully acquainted with the role of the inflammatory and immune response of the patient on his/her response to the therapy

VISITING PROFESSOR PROFILE

The successful candidate has a scientific and clinical knowledge in periodontology and a documented teaching expertise in periodontics at universities and research facilities. He/she should have lead research projects in periodontology and he should be author of scientific papers in international peer reviewed journals.
