## **Visiting Professor Program Academic Year 2025/2026**

**TEACHING COMMITMENT:** 12 hours

**COURSE TITLE**

**Physical and Rehabilitation Medicine III**

**TEACHING PERIOD**

I semester

**SCIENTIFIC AREA**

Rehabilitation

**LANGUAGE USED TO TEACH**

English

**COURSE SUMMARY**

The course:

- must provide rehabilitation indications for understanding Parkinson's disease.
- must develop the ability to understand the specific pathology in order to be able to carry out a complete evaluation.
- must illustrate various evidence-based treatment strategies and the use of new technologies.

**LEARNING OBJECTIVES**

At the end of the course the student will be able to:

- Know the specific characteristics of Parkinson's disease.
- Know the main indications and rehabilitation evidence.
- Know how to evaluate the specific pathology of patients with Parkinson's disease.
- Know how to plan a treatment according to EBP indications.

## **OTHER ACTIVITIES BESIDE THE COURSE**

It is required that the teaching also includes a practical part of evaluation and rehabilitation treatment and video presentation of clinical cases.

---

## **VISITING PROFESSOR PROFILE**

We are looking for an expert neurological rehabilitator who can share his clinical and research experience.
