Visiting Professor Program Academic Year 2025/2026

TEACHING COMMITMENT: 16 hours

COURSE TITLE

Reconstructive Urology and Sexual Medicine

TEACHING PERIOD

I semester

SCIENTIFIC AREA

Urology

LANGUAGE USED TO TEACH

English

COURSE SUMMARY

Uro-andrological reconstructive surgery is a super-specialist branch of urology that has undergone incredible development in the last decade, driven on the one hand by the increase in pathologies treated in this field and on the other by the introduction of minimally invasive technologies robotic and innovative prosthetic devices. In this context, the course aims to update the student on the most recent innovations in the reconstructive uro-andrological field.

LEARNING OBJECTIVES

The following pathologies and related surgical techniques will be discussed: erectile dysfunction, Peyronie's disease, male urinary incontinence, urethral surgery, penile cancer, gender affirmation, genital surgery and minimally invasive robotic genitourinary reconstruction. Moreover, infertility and sexual dysfunction will be discussed.

OTHER ACTIVITIES BESIDE THE COURSE

VISITING PROFESSOR PROFILE

The Visiting Professor candidate for this course should meet the following requirements:

- Experience in the field of reconstructive urology and sexual medicine with particular interest in erectile dysfunction, Peyronie's disease, male urinary incontinence, urethral surgery, penile cancer, male infertility, gender affirmation genital surgery and minimally invasive robotic genitourinary reconstruction.
- Experience in a university tertiary referral center for reconstructive urology.
- Prominent scientific profile in the field of reconstructive urology and andrology.
