## **Visiting Professor Program Academic Year 2025/2026**

**TEACHING COMMITMENT:** 12 hours

**COURSE TITLE**

**Family and Community Nursing.  
Evaluation of Complex Intervention in Primary Care.**

**TEACHING PERIOD**

I semester

**SCIENTIFIC AREA**

Nursing Science

**LANGUAGE USED TO TEACH**

English

**COURSE SUMMARY**

The teaching aims to provide students with operational and regulatory methods and tools to understand territorial social and health services and promote their development and functioning. It aims to provide knowledge useful for the practice of nursing and midwifery in the community, integrated with the network of professionals and services.

**LEARNING OBJECTIVES**

The course aims to:

- understand the structure and organizational models of territorial health services;
- define methodologies and strategies for transitiona care (hospital and community / health and social-health services) and different levels of care;
- identify the regulations that define the structural, technological, qualitative, and quantitative standards of territorial assistance;

- frame the Community and public health nursing and midwifery;
- define tools and indicators useful for assessing the appropriateness, safety, and quality of interventions/processes/care services.

### **OTHER ACTIVITIES BESIDE THE COURSE**

Seminars to PhD students

---

### **VISITING PROFESSOR PROFILE**

The visiting professor should be experienced in Nursing Sciences and University education and hold the position of Professor of Nursing. A special focus on implementation of community nursing and related research is required, with the employment of quantitative and qualitative methods. Experience in innovative approaches to chronic disease is appreciated, especially in home care. A curriculum in advanced nursing practice and community health care is particularly appreciated.
