Visiting Professor Program Academic Year 2025/2026

TEACHING COMMITMENT: 12 hours

COURSE TITLE

Extreme Events and Impact on the Territory

TEACHING PERIOD

II semester

SCIENTIFIC AREA

Earth Science

LANGUAGE USED TO TEACH

Italian

COURSE SUMMARY

The aim of this course is to analyze the main climatic characteristics, climate indices and climatic variations.

LEARNING OBJECTIVES

The objectives of the course are to:

- develop the ability to describe and interpret climate data in numerical and graphical form;
- equip students with the skills to collect and process climate data for geographical purposes;
- provide the necessary knowledge to perform statistical-climatological analyses of the main meteorological variables.

OTHER ACTIVITIES BESIDE THE COURSE

VISITING PROFESSOR PROFILE

The Visiting Professor should have an in-depth knowledge of the topic developed during teaching climate, climate variations and extreme events.
