Visiting Professor Program Academic Year 2025/2026

TEACHING COMMITMENT: 16 hours

COURSE TITLE

The Food Safety Management System: GHP, GMP, Prerequisites, Operational Prerequisites

TEACHING PERIOD

I semester

SCIENTIFIC AREA

Veterinary Sciences

LANGUAGE USED TO TEACH

Italian

COURSE SUMMARY

The course will be conducted as part of the postgraduate School of Specialisation in Inspection of Food of Animal Origin and will focus on an in-depth study of the food safety management system. During the course, the concepts of GHP, GMP, prerequisites and operational prerequisites will be explored.

LEARNING OBJECTIVES

The course aims to ensure that students fully understand the cornerstones of the food safety management system and the concepts of GHP, GMP, prerequisites and operational prerequisites.

OTHER ACTIVITIES BESIDE THE COURSE

VISITING PROFESSOR PROFILE

A strong background and experience in Food Safety, Microbiology, and Public Health are required. The candidate must possess in-depth knowledge of the Food Safety Management System, as well as GHP, GMP, Prerequisites, and Operational Prerequisites. The candidate should have advanced expertise in the research, teaching, and study of major foodborne pathogens (e.g., Salmonella, Listeria monocytogenes, E. coli STEC, etc.), including their distribution within key food supply chains, as well as the development and application of antimicrobial strategies to mitigate and control these pathogens in various food products and processing environments.
