DI TORINO

WELCOME KIT

Students with SLD

Welcome!

UniTo is increasingly focused on creating inclusive contexts, putting the person at the centre and promoting the full participation of all in university life.

Whether you attend the Courses of Study at Unito at the central locations, or those activated in Alba, Aosta, Asti, Biella, Cuneo, Ivrea and Savigliano locations, we have prepared some useful information for you to help you make the most of this new adventure!

First steps

If you wish to request support services, you should contact **the Students with Disabilities and SLD Office**. We will welcome you in order to help you undertake your path at the University with the tools best suited to you, through the formulation of the document **A TU PER TU - Individual UniTo agreement for university supports** (A TU PER TU - Accordo individualizzaTo in Unito PER i supportTi Universitari).

Office for Students with Disabilities and SLD

✉ ufficio.dsa@unito.it ☎ 011.670.4284

📍 Via Verdi, 25, ground floor – 10124, Torino

🌐 www.unito.it > [Services](#) > [For Study](#) > [Students with specific learning disabilities \(SLN\)](#)

To benefit from the support services, you must have a SLD certification that meets the requirements of law 170/2010

Available Services

By means of the support services provided and managed by the Office for Students with disabilities and SLD, UniTo seeks to meet the different needs of students with disabilities for attendance and academic success.

Based on your specific needs, we can:

- Support you in **your initial adaptation to the university environment**, including by meeting and exchanging with other students. We can support you in getting to know the facilities, the university websites, the organisation of your course of study, etc.
- bring you together **with other senior students with SLD (peer-to-peer tutors)** to discuss the best study strategies for your first exams.

- support you in your teaching activities through **peer tutors**, who can help you, for example, in lessons to take notes, when preparing for examinations, when dealing with bureaucratic procedures (career plan, Edumeter, etc.), etc..
- encourage your autonomy in studying through **specific compensatory software**, which are available at the office.
- allow you, in collaboration with the UniTo Libraries, to make use of **texts in accessible format** (in the case of dyslexia).
- propose other types of **intervention**, in case of particular difficulties.
- encourage, together with the other University staff, your active dialogue with the lecturers **to define any teaching and examination methods adjustments**.
- if you intend to take part in **Erasmus+** projects, we can, together with the relevant departments, help you to present your requirements to the host university and ascertain the possible services from which you will benefit. You may also apply for additional special needs funding; more information can be found on [the Erasmus+ for people with disabilities/special needs page](#).

For information you can always contact the Students with Disabilities and SLD Office.

Reference roles

The University of Turin offers students with SLD several kinds of listening and discussion.

In addition to contacting the Office for Students with Disabilities and SLD, the University also has:

- **The Rector's Delegate for the inclusion of students with SLD**, a political role with the function of coordinating and monitoring actions concerning the inclusion of students with SLD in the University.
- **The Departmental Contact Person for the inclusion of students with SLD**, who supports colleagues and students in defining possible adaptations to teaching methods.

- The Board for the Promotion of the Inclusion of Students with Disabilities and Students with SLD, a University body in which representatives of the teaching, technical-administrative and student body (including students with disabilities and with SLD) take part.

Other opportunities

Of course, there are other opportunities that may be of use to you :

- [Participation in the course 'Study method for students with SLD \(Specific Learning Disorders\) between cognition and metacognition' organised by the Department of Psychology.](#)
- [Sportello UniTo PER la Riuscita Accademica - SUPERA.](#)
- [Psychological support](#)
- [EDISU](#) - Ente Regionale per il Diritto allo Studio Universitario del Piemonte.
- [Polin Laboratory](#) - Methodologies, technologies, materials and activities for an in-depth study of accessible and inclusive mathematics
